Team Name and Members

Team Name: Team#7

Team Members:

Individual and Team Expectations

Our Why

Our team will be supporting a new initiative for XXX related to the identification of new IoT opportunities within the financial services sector. We will work together to foster an environment of friendship and respect by utilizing each team member's experience, skills and strengths. Our team's goal is to develop transferable skills integral to performing in an efficient manner as a group not only for the MBA program but also for advancing our professional careers.

Individual Goals

XXXXX- Extend capabilities and experiences in industries I have not previously worked in, strengthening my ability to adapt and gain a deeper understanding of these sectors and their priorities. Also, I'd like to add value and help reach professional goals as an MBA consultant outside of the academic program for the first time.

YYYYY - Improve my communication and leadership skills in a team environment and expand my knowledge of industry techniques and innovation. In addition, develop a breadth of distinctive skills in research methodology and analysis. Looking forward to exploring a project that is not in my field of expertise to further expand my overall knowledge.

MMMM- Gain project management experience and exposure to a new industry. Improve my written and oral communication skills, through acting as a liaison between the client and the MBA team. Finally developed various decision-making techniques to achieve an optimal recommendation.

SSSSS - Develop primary and secondary research skills including researching companies' websites, industry and academic publications, working with industry professionals, developing and analyzing hypotheses, as well as working on innovative business cases.

LLLLL- To develop strong networking skills through my MBA course learnings to date. Furthermore, apply research capabilities absorbed via Laurier MBA and most of all providing value to the client as an MBA professional. In Addition, gain leadership and strong communications techniques.

Team Goal

Our specific goals that we want to achieve over the period of the project include the following:

- All project's phases to be completed in a timely fashion
- Submit excellent quality work
- Equal contribution from all team members
- Achieve team cohesiveness in a timely manner by identifying and utilizing each member's strengths and weaknesses
- Strive for excellence in every stage of the project
- Develop an environment of friendship and commitment for our individual success

Potential Barriers of Success

Barriers that may hinder achieving our goals may include, but are not limited, to the following:

- Allocated task is not completed on time
- Lack of understanding the tasks
- Non-collaboration due to different learning styles
- Team member goals do not align with team charter goal
- Failing to adhere to our team charter

Team Tactics to overcome Barriers

Actions to be taken to overcome team barriers of success as following:

- Setting clear roles for each team member
- Set clear objectives for each phase of the project and follow up on a weekly basis
- Have roundtable discussions on any existing or potential issues
- Majority vote if any disagreement occurs
- Communicate with each other regularly by seeking and providing objective feedback
- Inform the team of any potential personal commitments that would impact the completion of the allocated task

Team Norms

Core Principles

Values: The team's core values include the following:

- Promote friendship and trust
- Cooperate as one team with one goal of success
- Treat each other with respect and professionalism
- Foster a collaborative environment to achieve our common goals

Behaviours

- Our team provides a safe work environment that every team member can express different ideas and prospective without judgement

- We work together to meet established deadlines, with maximum effort to motivate and support each other to produce quality work

Decision Making

- All decisions should be made by having open discussions and presenting objective arguments
- Should more than one viable option be presented, the team should utilize the majority voting method

Conflict Resolution Methods

- Any conflicts should be treated as opportunities for improvement and should be resolved via open discussions and suggestions for changes
- If the conflict cannot be resolved by the full group, it will be determined by the majority vote
- In the event of a tie, then the team lead will make the final decision
- In the unlikely event of unresolvable conflict, the team should seek the assistance from the faculty advisor

Expectations for Assignments

- All members of the team will take on a leadership role related to their strength, as it may arise in various phases of the project
- Responsibilities and expectations will be communicated regarding various tasks
- Assigning responsibilities and the expectations at the start of any task
- All team members are required to communicate at least 24 hours in advance of any roadblocks that would prevent them from completion of their assigned work
- All team members aim to produce excellent quality of work

Expectation for Meetings

- An agenda should be prepared before the meeting
- All team members are required to attend
- All team members are required to prepare for the meetings in advance by having ready any updates, follow-up/clarifying questions, etc.
- All team members are required to provide timely updates on any changes in their availability or preferences for team and/or client meetings
- During the meeting an appointed coordinator will record the action items

Contacting

Team Member/preferred way for communication/weekly availability as following:

Team member	Preferred Methods of Contact	Availability	
XXXX	Email Conference call Text	Monday	After 5PM
		Tuesday	After 5PM
		Wednesday	After 5PM
		Thursday	After 5PM
		Friday	After 5PM
		Saturday	Anytime
		Sunday	Anytime
YYYY	Email Conference call Text	Monday	After 6:00PM
		Tuesday	After 6:00PM
		Wednesday	After 6:00PM
		Thursday	After 6:00PM
		Friday	Vary due to MBA class
		Saturday	Vary due to MBA class
		Sunday	All day
SSSS	Email Conference call Text	Monday	After 5:30 pm
		Tuesday	After 5:30 pm
		Wednesday	After 5:30 pm
		Thursday	After 9:00PM
		Friday	Vary due to MBA class
		Saturday	Vary due to MBA class
		Sunday	All day
MMMM	Email Conference call Text	Monday	After 6
		Tuesday	After 6:00PM
		Wednesday	Not Available
		Thursday	After 6:00PM
		Friday	Vary due to MBA class
		Saturday	Vary due to MBA class
		Sunday	All day
LLLL	Laurier email Conference call Text	Monday	12:30PM-1:30PM, after 5PM
		Tuesday	12:30PM-1:30PM, after 5PM
		Wednesday	Limited availability
		Thursday	12:30PM-1:30pm, After 5pm
		Friday	12:30PM-1:30pm, After 5pm
		Saturday	Vary due to MBA class
		Sunday	All day

Performance Criteria

We have selected Five performance criteria and measures for our team performance expectations:

Criteria	Performance indicator	Measure
Attendance	Attending all the meetings	Zero absences for non-emergency reasons
Team Efficiency	Communication and understanding of the tasks	How many items we complete on the agenda
Team Collaboration	working with each other	Positive feedback from each other
Individual Satisfaction	Team member are positively contributing	Individual contribution by adding value to the project
Teamwork Quality	Individual performance in each task	Positive feedback from the client and the faculty supervisor

Resources

Our team will utilize the below channel to gather information, research points, obtain feedback and other related support:

- Academic Resources- Laurier academic success program, academic resource advising resources
- Laurier Library Resources- such as text and or online database
- Course resources- to leverage the course resources i.e. professors and lectures
- Client resources provided to us- The resources should be permitted for the team to use and easily accessible as well

Team roles

- Team co-ordinator will be the member who mainly communicates directly with the faculty members and the client
- Team leader – the role will be rotated among the team. Each one of us have the opportunity to be the team leader
- Team reviewer- also the role will be rotated among the team. Each one of us has to play a reviewer role
- Team members- will be responsible for assigned tasks and will act as subject matter for their section of work

Please note that the above-mentioned roles will be subject to tailored based on the size and the nature of the project.

Checkpoints

Our team agreed that a structured meeting's agenda can help us improve the efficiency of the meetings. In effort to remain focused and on-task during our meetings, which will be on a weekly call meeting, checkpoints are major components of having a structure. However, our team implemented a timekeeping strategy:

- We assign a notetaker to monitor the meeting time discussion and breaks
- We also may need to spend between 15-20 min after our meetings with the client or the supervisor to review our upcoming meeting agenda
- Additional meetings will be determined for the team if deemed necessary

The main objective of our checkpoint strategy is to reinforce accountability among the team members and make full usage of our time however, we may face some challenges. Time constraint could be one of the challenges that may hinder our ability to thoroughly addressing the feedback.

Another challenge we may face is the communication among the team due to lack of understanding or clear direction on tasks. It is important to have an environment that makes team member feels safe to seek clarification without any judgement.

Finally, a conflict or disagreement may arise, it is essential for the team to be able to walk through the conflict with discussion with the other team member. If the disagreement cannot be resolved, then the team leader will have the majority vote resolution.

Preliminary Project Plan

- 1) Review Scope & Objectivity- As a team we review the assignment requirement and identify all the deliverables deadline
- 2) Brainstorm- together we will discuss and evaluate to determine the overall direction to complete the tasks
- 3) Assign Tasks & Deadlines- as a team we will assign tasks based on team preference and experience. We encourage personal development that will promote team member to experience roles outside their comfort zone
- 4) First level review- at this level we seek one another feedback
- 5) Second Level Review- once the tasks are completed the assigned reviewer and discuss with the team member to have the final approval
- 6) Submission- The team lead will be designated to submit the assignment on the deadline that agreed upon in step # 3
